Three designated walks await you, choose from historic, architectural and nature trails or enjoy them all. All age groups and activity levels will enjoy the walks.

- ▣ This Historic walk will share the charm of the heart of our community, and the unique shops waiting to meet you! Look at the many unique buildings built in the 1800's, take your refreshment break at D&R Depot, our historic train station. Our beautiful creek side vistas will have you walking this trail more than once!
- ▣ Architectural walk includes a Village neighborhood that was full of wealthy businessmen's homes built in the 1800's and even the lovely LeRoy House and JELL-O Museum. We describe the hand crafted architectural features of "one of a kind" homes and tour the Nationally Registered Machpelah Cemetery too.
- ▣ Nature walk shares one of the most gracious features of LeRoy, Mercy Grove, National home of the Mercedarian Brothers of St. Raymond Seminary. Walking through the grounds provides the air of older times slower pace of daily life. The history of the estate is provided in the walking guide. The walk ends at G's, home to Mackinac Island Ice Cream Shop. Best ice cream in Genesee County!
